FORENSIC EDITORIAL NOTE FOR ENGLISH-SPEAKING READERS

This document is an unabridged English translation of the official training manual issued by the Argentine Ministry of Education to primary school teachers nationwide. It prescribes exactly what Argentine teachers must say, how classroom activities must be conducted, and how children from ages 6 to 12 are instructed on South Atlantic history. Throughout this text, side-by-side [FORENSIC ARCHIVAL REBUTTAL] annotations provide direct references to primary British and Argentine historical records, naval logbooks, and declassified diplomatic treaties that the Argentine Ministry systematically omits from teacher training.

1. STATUTORY COERCION: PENALTIES FOR ADMINISTRATIVE DISSENT

"ARTICLE 1. — Institute compulsory, periodic, and permanent training on the Malvinas Question for all persons who perform public functions at all levels and hierarchies of the Executive, Legislative, and Judicial Branches of the National State.

ARTICLE 5. — Refusal, unjustified absence, or failure to complete the mandatory evaluation shall be considered a SERIOUS DISCIPLINARY OFFENSE, giving rise to administrative disciplinary proceedings, formal reprimands, and potential termination of employment."

[FORENSIC ARCHIVAL REBUTTAL & PRIMARY SOURCE AUDIT]

State Coercion of Adults: Unlike the Micaela Law (gender violence training), Ley 27.671 forces 3.5 million public workers, judges, and civil servants into state foreign-policy orthodoxy. Refusal to subscribe to state dogma is legally penalized as gross misconduct, directly violating Article 19 of the Argentine Constitution (protection of internal conscience).

2. OFFICIAL SYLLABUS: CORE DOCTRINES TESTED IN MANDATORY EXAMS

"MODULE 1: Historical and Juridical Foundations.

Key concepts tested: Succession from Spain (Uti Possidetis Juris); illegal British military aggression on January 3, 1833; eviction of the legitimate population; unbroken diplomatic protest.

MODULE 2: The Fallacy of Self-Determination.

Key concepts tested: Why UN Resolution 2065 (XX) defines the dispute as purely bilateral between Argentina and the UK; why the principle of territorial integrity prevails over self-determination; why islanders are an implanted population with no rights.

MODULE 3: Natural Resources and Strategic Geopolitics.

Key concepts tested: Plunder of hydrocarbons and fisheries; continental shelf extensions under UN CLCS; military base at Mount Pleasant as a threat to South America."

[FORENSIC ARCHIVAL REBUTTAL & PRIMARY SOURCE AUDIT]

Collapsing under Scrutiny: Every single module tested in Ley 27.671 collapses when contrasted with international law: Spain evacuated in 1811 (derelictio); UN Charter Art. 73 enshrines the paramount interests of inhabitants; and Mount Pleasant is a purely defensive garrison built following an unprovoked invasion in 1982.
